# Settling In

## Wraparound Care

Here for young people  
Here for communities  
Here for you

## Welcome

At YMCA Humber, we understand how difficult it is for parents to leave their children with people outside of their direct family, therefore a key part of our Wraparound Care is to ensure each child is settled and that as their parents/guardians are happy with the care we provide.

Our team will work with you to support your child through this transitional period and make it as easy as possible providing a relaxed, happy and inclusive environment for each and every child.

## Before joining us

Prior to accessing our Wraparound Care facility, we will offer you and your child / children the opportunity to visit one of our afterschool sessions, so that you can see first hand our amazing facilities and ensure your child feels happy and confident whilst in our care.

It will also provide us with the chance to gather some key information about your child including:

- likes and dislikes.
- any set routines they may have.
- favourite activities.
- how to comfort them if they become upset.
- any additional needs they may have.

## Settling In

Settling In sessions will give our team the opportunity to start to build a relationship with you and your child/children, making sure they feel safe, secure and happy with us.

Sessions are totally optional and dependent upon the needs of your family, and offered as a single drop in or over a period of time.

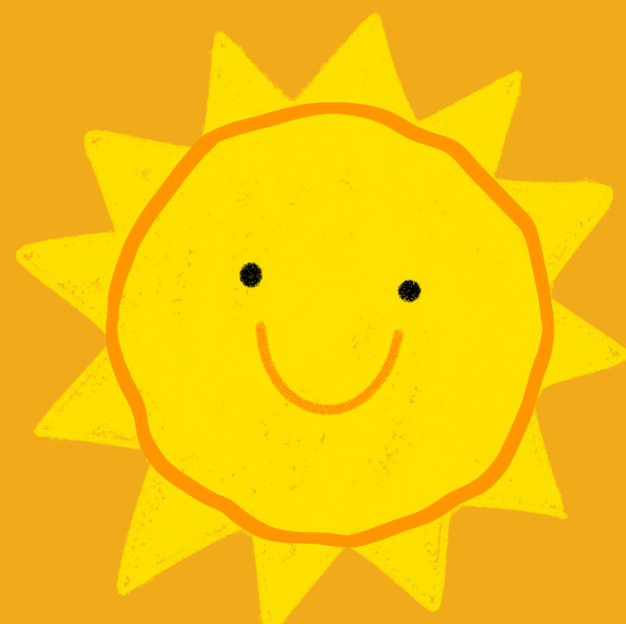

## What we will focus on

During the first few sessions our Qualified Team will take time to gather all of the information needed to make sure we can actively develop the most positive of relationships with you and your family.

We will ensure  
**EVERY CHILD**

is always  
supported  
& cared for

We will ensure  
**EVERY CHILD**

is always  
happy when  
in our care

We will ensure  
**EVERY CHILD**

has the  
opportunity  
to develop & grow
